Primary NAICS: 424210 - Drugs And  
Druggists' Sundries Merchant  
Wholesalers

Secondary: 111334, 325412, 456191,  
541714, 541990

## Capabilities Statement

---

Saulsbury Family Farms, LLC began growing the Aronia berry in 2011 because we recognized the potential of this super-fruit that is native to the US. Now doing business as Tyrian Industries, LLC, we incorporate Aronia into value-added products such as TGUARD™, a nutritional supplement for urinary tract health. Tyrian also supplies food-grade whole Aronia berry and freeze-dried powder. Tyrian coordinates with the University of Nebraska for Aronia research.

Tyrian offers TGUARD™, a physician-formulated nutritional supplement that supports urinary tract health. In production Tyrian offers TCORE® for joint, tendon, and muscle recovery. Tyrian produces food grade frozen Aronia berries and manufactures freeze dried Aronia powder. These two products can be utilized by companies seeking botanicals in their formulations.

To help people strengthen and defend their health through the creation of high-quality, innovative products.

## Core Competencies

---

- Physician Formulation & Consulting
- Natural Supplements
- Aronia Berry Farming
- Clinical Medicine
- Antibiotic Stewardship
- Nutritional Advisor
- Human Resource Consultation
- Evaluate research and apply evidence-based guidelines, systematic reviews and scientific literature.

## Differentiators

---

Medical expertise including the medicinal benefits of polyphenols. Evaluation of clinical research with presentations specific to nutrition. Expertise in product formulation. Premium supplement manufacturing expertise. Expertise in Aronia berry production and harvesting. Specialized Aronia berry harvesting equipment, cultivators, and over-the-row spray machinery.
